

**JOINT MASTER OF SCIENCE DEGREE
OFFERED BY
THE WOODRUFF SCHOOL OF MECHANICAL ENGINEERING**

an innovative collaboration between

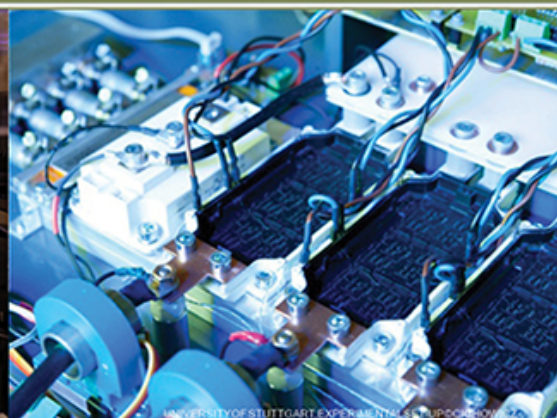

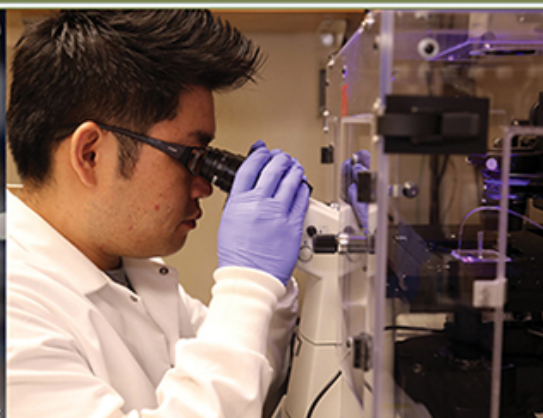

Universität Stuttgart

ABOUT THE PROGRAM

- Two-year program
- Instruction in English
- Research leading to a M.S. thesis
- Industrial internship in Germany
- Joint M.S. conferred by both institutions

Application

Applicants to the program from the United States should apply through Georgia Tech and those from Europe through the University of Stuttgart. Applicants will have completed, by the time of entering the program, a bachelor's degree in mechanical engineering or closely related discipline. In addition, students from the United States should have proficiency with the German language at the level of one undergraduate year of study. Admission to the program will be determined by a joint committee representing both institutions.

Travel Registry

Students can complete the Travel Registry by going to atlas.gatech.edu and then selecting the International Travel Registry-IAP from the left side menu. Once they have completed the brief registration, they will be enrolled in the international insurance coverage provided by CISI and the charge will be placed on their Bursar account. The current rate is \$1.25/day.
