

How to Find an Internship

Woodruff School of Mechanical Engineering

Why should I look for an internship?

All students should plan to have two work experiences prior to graduation. Most companies require students to have work experience before being considered for full-time positions.

What year in school must I be to look for an internship?

Companies who hire interns are generally looking for juniors or seniors because they look for students who are close to graduation. However, students are eligible to intern after completing their first year.

What resources does Georgia Tech have to find an internship?

Georgia Tech Internship Program – The Center for Career Discovery and Development handles internship positions.

- **Requirements to participate in the internship program:**
 - First-year students must complete 30 hours of coursework before starting an internship.
 - Transfer students can begin to look for work during their first full-time semester; however, they must complete at least 12 hours in order to be cleared for work.
 - A minimum GPA of a 2.0 and be in good academic standing.
- **Instructions to apply to jobs on CareerBuzz**
 - Apply to Ga. Tech's internship program: <http://career.gatech.edu/internships/application-process>
 - Go to CareerBuzz to create a new student account at: <https://gatech-csm.symplicity.com>
 - Fill out the Experiential Learning Application in CareerBuzz before you apply to jobs. From "My Quicklinks" heading on the main screen, select "Submit/Edit Your Experiential Learning Application."
 - Instructions to register an internship once you have secured a position can be found at: http://career.gatech.edu/internship/job_acceptance_placement
 - International students have additional requirements: <https://career.gatech.edu/internships/international-authorization>

What other resources are available outside of Georgia Tech to look for an internship?

- Attend on-campus employer information sessions with a resume for particular companies of interest. A list of company sessions: www.careerdiscovery.gatech.edu/employer-information-sessions
- Attend the Georgia Tech Career Fairs: www.careerdiscovery.gatech.edu/campus-career-fairs
- Attend ASME (American Society of Mechanical Engineers) or ANS (American Nuclear Society) meetings and network with employers who give presentations at the meetings. Both organizations have career fairs as well.
- Use Buzzfile to find companies by job in each state. <http://career.gatech.edu/career-tools> (select Buzzfile)

How to Find a Co-Op

Woodruff School of Mechanical Engineering

Why should I look for a co-op?

Cooperative Education is an academic program designed to complement a student's formal education with paid practical work experience directly related to the student's academic major; co-ops alternate semesters of on-campus study with semesters of full-time employment.

What year in school must I be to look for a co-op?

Companies who hire for co-ops are generally looking for younger students who can grow and learn over the series of three or more work rotations. Most undergraduate co-op students begin the program as sophomores, but students can begin as soon as the summer after their first year.

What resources does Georgia Tech have to find a co-op?

Georgia Tech Co-op Program – The Center for Career Discovery and Development coordinates co-op positions.

- **Requirements to participate in the co-op program:**
 - All students are eligible to apply without restriction during their first semester at Georgia Tech.
 - First year students must complete at least one semester of school prior to the start of the co-op rotation.
 - Have a minimum GPA of a 2.0 and be in good academic standing.
 - Have at least three school semesters remaining after the first work term.
 - Be enrolled full-time the semester prior to the first work term (summer is an exception).
- **Instructions to find a co-op job:**
 - Co-op program application instructions can be found at: <http://career.gatech.edu/co-op/application-process>.
 - Go to CareerBuzz to create a new student account at: <https://gatech-csm.symplicity.com>
 - Fill out the Experiential Learning Application in CareerBuzz before you apply to jobs. From “My Quicklinks” heading on the main screen, select “Submit/Edit Your Experiential Learning Application.”
 - On-line orientation is MANDATORY for new program participants before scheduling job interviews. Watch the online orientation Prezi in CareerBuzz.
 - Apply for co-op positions on CareerBuzz.
 - Instructions to register a co-op once you have secured a position can be found at: http://career.gatech.edu/co-op/job_acceptance_placement
 - International students have additional requirements that can be found at: <https://career.gatech.edu/co-op/international-authorization>
